

「地殻ダイナミクス」国際活動支援班 特別講演会

日時： 7月27日(水)9:00-12:00

場所： 産業技術総合研究所つくば第7事業所国際セミナー室(7-8-326)

09:00-10:00

B. A. Verberne

Strength, Stability, and Microstructure of Simulated Calcite Faults Sheared Under Laboratory Conditions Spanning the Brittle-Ductile Transition

10:00-11:00

André Niemeijer and Reinoud L.M Vissers

Earthquake rupture directivity inferred from depth-dependent frictional properties

11:00-12:00

C. J. Spiers

Effects of fluids on fault friction and healing behaviour: Integrating experimental, microphysical and observational approaches
